

# WORLD-CLASS EQUIPMENT DESERVES WORLD-CLASS LUBRICATION

**Mountain Regional Equipment Solutions (MRES)** is the premier supplier of automated lubrication systems, providing our Groeneveld Twin and Twin XL. With hundreds of installations of Komatsu and other KEC-supported equipment of every size, before delivery or on your site, KEC and MRES partner to meet your lubrication needs.

Our twin dual-line lubrication systems are well-suited for the most demanding applications on mobile heavy equipment and plant equipment, and feature:

- Longer service life of slewing bearings, pins and bushings
- Lower repair and maintenance costs
- Improved machine and vehicle uptime
- Higher productivity
- Greater residual value
- Up to 50% less grease consumption
- No possibility of accidents while greasing hard to reach lubrication points
